

# Idrees Daudzai

Software Developer

✉ idreesdaudzai2000@gmail.com ☎ +93780363104 📍 Kabul, Afghanistan

📅 2000 🇦🇫 Afghan 🔄 Single

🌐 <https://www.linkedin.com/in/idrees-daudzai-54432a228/>

## Objective

Motivated and detail-oriented Software Developer with over five years of professional experience in full-stack web application development, database design, and system optimization. Seeking to contribute my expertise in scalable software solutions, API integration, and system architecture while gaining exposure to innovative projects and collaborative global teams.

## Professional Experience

08/2022 – Present  
Kabul, Afghanistan

### Ministry of Communication & Information Technology

Software Development Specialist

Designed, developed, tested, and deployed scalable backend systems and RESTful APIs using Java, Spring Boot, PHP, Laravel, ASP.NET Core, and C#.

Wrote clean, modular, and well-documented code following clean-code principles and industry standards.

Implemented secure authentication, authorization, JWT security, and data protection mechanisms.

Integrated external APIs, third-party services, and internal systems into backend applications.

Managed database migrations, backups, replication, and data integrity processes.

Collaborated with DevOps teams to automate deployments and manage CI/CD pipelines.

Deployed and maintained systems on Linux servers and cloud environments.

Containerized applications using Docker for consistent and reliable deployments.

Monitored system performance, logs, and availability to ensure stable operation.

Worked closely with frontend developers, designers, QA, and product managers to deliver end-to-end solutions.

Mentored junior developers through code reviews, technical discussions, and knowledge sharing.

Participated in sprint planning, daily stand-ups, and backlog grooming sessions.

Promoted teamwork, collaboration, and continuous learning within the development team.

Performed testing, debugging, and troubleshooting to ensure system stability and reliability.

Enforced best practices in security, performance optimization, and data protection.

Proposed improvements to system architecture, development processes, and codebases.

Contributed to the organization's long-term technical roadmap and innovation efforts.

Took ownership of deliverables from planning to deployment and maintenance.

Ensured projects were delivered on time, meeting quality and business requirements.

Maintained accountability for performance, deadlines, and operational outcomes.

01/2021 – 07/2022  
Kabul, Afghanistan

### **AriaStack Technologies Solutions**

Software Developer

Designed, developed, and deployed software applications using modern programming languages, frameworks, and best practices.

Collaborated with product owners and cross-functional teams to translate business requirements into scalable technical solutions.

Implemented clean, efficient, and maintainable code, following industry standards, design patterns, and version control workflows.

Conducted thorough testing and debugging to ensure high performance, reliability, and security of applications.

Improved existing systems and features by optimizing code, enhancing functionality, and resolving technical issues based on user feedback.

Created and maintained technical documentation, including system designs, API references, and user guides to support ongoing development.

01/2020 – 12/2020  
Kunar, Afghanistan

### **IQ Leading Center**

Junior Software Developer | Part Time

Assisted in designing, coding, and debugging software applications using modern programming languages and frameworks.

Collaborated with senior developers to understand project requirements, implement features, and resolve technical issues.

Participated in code reviews to learn best practices in clean coding, version control, and software development standards.

Tested and maintained software modules, identifying bugs and contributing to performance improvements.

Worked with cross-functional teams to support documentation, gather feedback, and ensure smooth project delivery.

## **Education**

2021

Asadabad, Kunar

### **Software Engineering**

Sayed Jamaluddin Afghani University

2017

Nangarhar, Jalalabad

### **12th Grade Certificate**

Nasrat High School

2016

Nangarhar, Jalalabad

### **Certificate in Information Technology (CIT)**

Afghan Youth Connect/Global Exchange Program AYC/GEP

2015

Nangarhar, Jalalabad

### **Diploma in English Language (DEL)**

Tolo-e-Afghan Institute

## **Languages**

## Projects

### Content Management System Projects

mrmc.gov.af ☑ – Official website & CMS for Macroryan Repairing and Maintenance Corporation  
test.ku.edu.af ☑ – Academic portal for Kabul University  
tourism.gov.af ☑ – Tourism information portal for Afghanistan Tourism Directorate  
test.mcit.gov.af ☑ - Official website & CMS for Ministry of Communication & IT  
pdbd.gov.af ☑ - Official website & CMS for Beyhaqi Book Publishers  
<https://pbtest.pashtanybank.com.af/> ☑ - Official website & CMS for Pashtany Bank

### Management Information System Projects

ictinnovation.gov.af ☑ – Innovation Management Information System for Ministry of Communication & IT  
103.132.98.98:3000 - Law Management Information System for Ministry of Justice  
<http://103.132.98.250:8500/ui/dc1/services> ☑ - Microservice architecture for Kabul Jadid project  
10.10.253.5:81 - GovNet Management Information System for Ministry of Communication & IT

## Key Strengths

- Ability to work effectively in team-based international environments.
- Strong analytical and problem-solving abilities.
- Quick learner with adaptability to new technologies.
- Excellent communication and project coordination skills.
- Committed to delivering high-quality, secure, and maintainable software solutions.

## Other Skills

**Project Management**

**Report Writing**

**System Deployment**

**Debugging**

**Communication**

## Tools & Technologies

- Frontend (ReactJs, NextJs, Angular)
- Backend (Spring Boot, Laravel, ASP .Net Core)
- Other Technologies (Git, GitHub, Docker, CI/CD REST APIs, MVC, Strapi CMS, GraphQL)
- Databases (PostgreSQL, MySQL, SQL Server, MangoDB)
